State of Delaware
Estimated Distance Affidavit

If you have not traveled in a jurisdiction for more than 18 months that jurisdiction will be removed from your cab card. If you submit a business plan or lease stating the destination and the distance to that destination we will add that jurisdiction on for one more year if actual distance is not accrued.

When determining estimated distance you must multiply the distance times the number of vehicles in the fleet.

Example:

1 vehicle, 10 trips to Dover, DE, 30 miles round trip = 300 miles.
3 vehicles, 10 trips to Dover, DE, 30 miles round trip = 900 miles.

Carriers unable to give detail must use the attached 'Estimated Distance Chart. The chart is based on the sum of actual distance reported by Delaware carriers during the previous mileage year.

_____ vehicle(s) X ____ trip(s) to _____ X _____miles round trip = _____
