ACKNOWLEDGEMENTS.....iv

INTRODUCTION..... 1
Project description
Project goals

BACKGROUND RESEARCH..... 5
Physical geography and environment
Prehistoric cultures of the region
Postcontact history of the region
Primary documentary research in project area

RESEARCH DESIGN.....14
Theoretical orientation
Predictive model for historic component
Method of determining test loci
Field techniques
Cataloguing techniques
Statistical anaylsis techniques
Physical constraints
Predictive model for prehistoric component

DESCRIPTION OF WORK.....24
Boundaries and physical features
Cultivated flora
Gross cultural features
Excavation narrative
Artifact description and analysis

INTERPRETATION.....79
Prehistoric interpretation
Discussion relative to research design
Limitations or inadequacies of available data

RECOMMENDATION.....87
National Register eligibility
Specific determinations of effect
Recommendations for future research
