EAST SIDE RECREATION IMPROVEMENTS AND ROCK MANOR GOLF COURSE

GOLF COURSE RECONSTRUCTION TO START LATE FALL 2005

The Matson Run Flood Attenuation Project utilizes a variety of storage elements. Those storage elements include an undeveloped area North of Weldin Road, three basins along proposed East Park Road and a detention facility within the Golf Course just North of Interstate I-95.

The following Flow Rate reductions will be achieved as the result of the Matson Run Flood Attenuation Project

2 yr.	10 yr.	100 yr.
25%	60%	50%

Blue Ball Properties **Transportation Plan**
