WELCOME

PUBLIC WORKSHOP

Welcome to the Junction and Breakwater – Rehoboth Extension Trail Public Workshop. This proposed project is being undertaken to improve accessibility and safety for pedestrian and bicyclist users of the heavily used Junction and Breakwater Trail. This project was initially presented as part of the 1st State Trails and Pathways public meetings in May 2012.

The information presented tonight is at a Conceptual level and we are seeking input from the public. Please review the displays and talk with a project team member to discuss any questions you might have in regards to the proposed improvements. Comment forms are available if you wish to submit written comments.

Thank you for your interest in the project.
