Station No. 1	Penny Hill	Phone Holly Oak	1111
Station No. 2	State Rd.	Phone Wilmington	1041
Station No. 3	Dover	Phone Dover	1026
Station No. 4	Georgetown	Phone Georgetown	34
Station No. 5	Bridgeville	Phone Bridgeville	1501
State Police Headquarters		Phone New Castle	501

### "NO PASSING ZONES"

Delaware's no passing zones are marked on the pavement with white paint and are strictly enforced. The rule is simple. A white line on your side of the center line means that you must not overtake and pass a vehicle or drive to the left half of the roadway until the white line on your side ends. Frequently, there is a white line on both sides which means that passing is prohibited, from either direction.

The illustrations on this page show the method used by the State Highway Department to mark points where, due to limited sight distance, driving to the left side of the roadway is prohibited.

Picture Number 1 illustrates this marking on a hill on 2 Lane roadway, while Picture Number 2 illustrates the same marking applied to a curve. The driver may pass when the white line in his lane ends.

In Picture Number 3 is illustrated the application of double white lines on 4 Lane pavement. It is unlawful to cross the center line from either side in overtaking and passing when the double white line is in place.

### MAKING TURNS

Drive cautiously into proper lane before making a turn. Avoid wide sweeping turns or turns from wrong lane. Be sure to signal your intention to turn.

### HAND SIGNALS

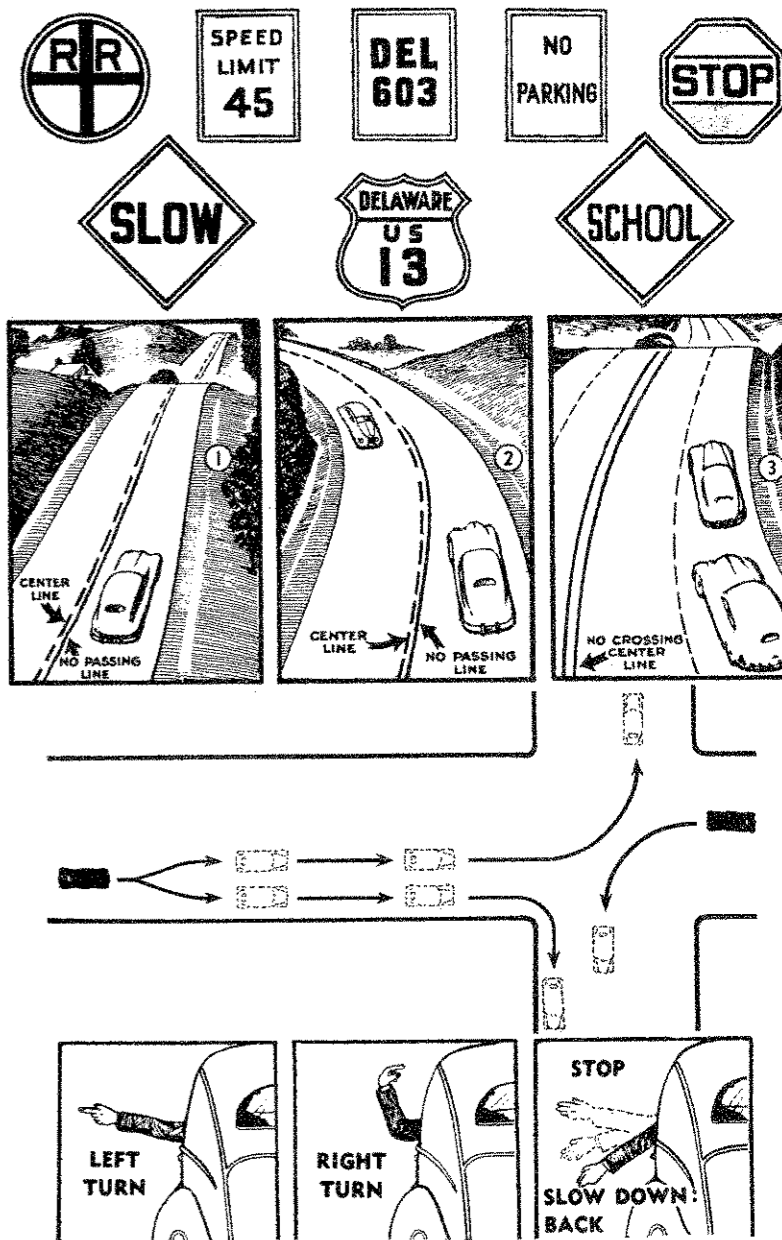

Hand signals for turns must be given continuously during the last 100 feet before turning unless approved signal devices are used instead. Study these illustrations of hand signals and proper turning.

### These are the Main Reasons for Automobile Accidents Resulting in Persons Killed or Injured:

1. Exceeding the Speed Limit
2. On Wrong Side of Road
3. Reckless Driving
4. Driving Off Roadway
5. Failing to Signal
6. Disregarding Stop Signs
7. Parking on Highway
8. Passing on Curve or Hill
9. Give your whole attention to the job of driving.
10. Keep pace with the majority of traffic on heavily traveled highways. If autos are jamming up behind you or you are continually being passed, you are going too slow, speed up.
11. Be sure your brakes are in good working order.
12. See that both headlights and tail light are working; headlights adjusted so they illuminate the road but do not blind approaching driver; use dimmers when meeting other cars.
13. Proceed cautiously at intersecting highways and when meeting pedestrians.
14. Don't permit passengers or merchandise to crowd the driver's seat.
15. Give your whole attention to the job of driving.
