

DelDOT - Development Coordination EMAIL-BLAST

Subject:

Temporary Hold on Traffic Counts

Effective Date:

March 17, 2020

Notice

Due to the current State of Emergency relating to the Corona Virus (COVID-19), the Delaware Department of Transportation asks that all Traffic Counts for Traffic Impact Studies (TIS) and similar work be postponed until the State of Emergency is lifted. A good measure of when traffic counts may be resumed would be the reopening of public schools.

Engineers in responsible charge of Traffic Impact Studies may contact the Development Coordination Section at 302.760.2266, if they have any questions in this regard.
