**SR 8, FORREST AVENUE AND SR 15, SAULSBURY ROAD, DOVER [ID No. 05-00095]**

**PROJECT SCOPE/DESCRIPTION:** This project involves the installation of mountable medians on the northbound and southbound lanes of SR 15, Saulsbury Road and SR 8, Forrest Avenue to prohibit left-turns to/from the CITGO, EXXON, Harvest Years Senior Center, and the Subway driveways. The proposed work will also include the installation of pedestrian indications and crosswalks on the north, south, and west legs of the intersection, which will require the installation of concrete islands on the northwest and southeast corners of the intersection. Work will also include, as needed, milling and a two-inch overlay on the existing roadway section to accommodate pavement restriping.

All work will take place within the existing right of way. Minor drainage improvements will include the installation of reinforced concrete pipe, drainage inlets, and a manhole. Utility work will consist of adjusting utilities within the roadway. No wetlands or water resources are located in the project area.

**PROJECT JUSTIFICATION:** This site was identified through the Highway Safety Improvement Program (HSIP) as Site S in 2001. A concept plan has been developed, and there was a public meeting on March 20, 2002.
