Engraved and glazed ceramic plaque found on site at Camp Wright. The building on the plaque bears a strong resemblance to Gawthrop Hall.

Photograph of two engraved and glazed ceramic plaques that depict the former wooden pedestrian bridge that crossed Mill Creek. This bridge was located on the west side of the Main Access Bridge. Note what appear to be pillars under the bridge and Bunkhouse #2 on top of the hill in left background on the left plaque. The plaques were found on site at Camp Wright.
