

Reference Figure 2
Hickory Bluff Feature Types

	Types	Description	Example Planview and Profile
Type A Artifact Features	Type A1	Concentrations of thermally altered stone	F 284 
	Type A2	Concentrations of diagnostic artifacts	F 178 
	Type A3	Concentrations of modified lithic raw materials	F 294 
	Type A4	Concentrations of lithic raw materials	F 229 
Type B Basins	Type B1	Large- more than 2 m in greatest dimension	F 118 
	Type B2	Medium – between 1 and 2 m in greatest dimension	F 67 
	Type B3	Small – less than 1 m in greatest dimension	F 137 
Type C Surface Features	Type C1	Compacted soils	F 416 
	Type C2	Areas of charcoal flecking and/or soil discoloration	F138 
Type D Biotic Patterns	Type D1	Root channels	F 96 
	Type D2	Tree molds	F 75 
	Type D3	Rodent burrows/tunnels	F 157 
Type E Geomorphic Features	Type E1	Rise in B- or C-horizons	F 74 
	Type E2	Transitional E/B- or E/C-horizons	F 23 
	Type E3	Fluvial	F 19 
Type F Natural	Type F1	Untyped natural discontinuities	F 14
