

5.0 SUMMARY AND RECOMMENDATIONS

5.1 CONCLUSIONS

Based upon reference to the developed historic contexts for the project and application of National Register criteria, none of the individual resource within the NE Front Street Grade Separated Intersection Project area is currently being recommended eligible for the National Register. The eight properties within the project area do not constitute a historic district and are not likely to be contributing elements to any adjacent historic district. The results of the survey and evaluation are summarized in Table 1.

Field notes, field maps, field drawings, and copies of secondary source historical materials are on file at John Milner Associates, Inc., 535 North Church Street, West Chester, Pennsylvania. Upon completion of the investigation, copies of the report, as well as survey forms and photographs, will be deposited with DelDOT and the SHPO, both agencies located in Dover.

| K07393 | Dwelling, 706 NE Tenth Street (K07393) Tax ID Pin: 5-00-17415-01-8400; Acres: 1.81 Date: ca. 1920 (dwelling), ca. 1950 (garage); Property Type: residence UTM Coordinates: N 4309100.29, E 463782.78 | not eligible |

5.2 RECOMMENDATIONS

Delaware's historic past has been compartmentalized into seven temporal study units that form the basis of a chronological framework for the investigation of the state's historic resources. These study units are addressed in Section 2.0 (Historic Overview). A complete historical context organized within these study units for Kent County was prepared in conjunction with the US 113 North-South Study (McVarish et al. 2005; Catts et al. 2004). This context was utilized in the current survey and evaluation, and there was no need to prepare additional contexts relative to historic resources in the current project area. Furthermore, since none of the eight properties is recommended as eligible for the National Register, no additional site-specific research appears warranted.
