

5.0 SUMMARY AND RECOMMENDATIONS

No previously recorded archaeological sites or historic properties listed in or eligible for listing in the NRHP are present within the S.R. 15 (Canterbury Road) Improvements project APE, and none were identified during the current surveys. Based on an evaluation conducted according to state and federal guidelines, none of the surveyed historic resources are recommended as individually eligible for NRHP listing, and none of the surveyed historic resources constitute a historic district that would be recommended for NRHP eligibility as a historic residential suburb. The roadway project as currently designed will not affect any significant cultural resources or historic properties; therefore, no additional archaeological or historic architectural investigations are warranted.
