Project Status Query

Note: State Project Numbers for all active and new projects will be reformatted to conform to a new statewide financial system in mid-July 2010. The change removes the dashes (-) and replaces the first two digits with a "T" followed by the year assigned to the project. The remaining five digits do not change. For example, State Project 30-061-03 will be displayed as T201006103 ("30" indicates year 2010) and State Project 29-500-76 will be displayed as T200950076.

You can also use the Project Title to search for a word in the title of the project.
