

DelDOT – Development Coordination EMAIL-BLAST

Subject/Title:

Development Coordination Update

Delivery Date:

June 16th, 2016 1:23PM (ET)

Message:

The Development Coordination Section has some exciting announcement (posted below) to share! These email notifications will be sent more frequently to ensure that everyone is kept up to date.

- Mark Galipo has now joined Development coordination as our “In House” traffic reviewer. Please note Mark only helps with Plan Reviews and does not do TIS or AWS.
- Development Coordination has recently updated the required submittal checklist. Please find them [HERE](#) under checklist. Please remember that all Submissions must include the appropriate checklist.
- Revised guidance on routing Traffic Signal Designs for DelDOT review will be posted to the website soon.
- Please insure that you are properly signed up for the [email notifications](#). In addition, please forward to anyone else who may be interested in receiving notifications.
- Development Coordination has adopted a new [Manual](#) that has taken effect April 2016.
- A Development Community Summit will take place September 2016. (Exact date, location, and agenda to be announced in the future)
- Development Coordination Plan Review is going to an electronic approval process, in the near future. This will help to reduce the number of iterations, approval time and paper sets
- PDCA Phase II version coming for internal Plan Review This will allow for a more streamlined internal process.
