

Alternative 9 Realignment of Harmony Road

Alternative 9 Realignment of Harmony Road

Advantages

- Changes existing Harmony Road to a local, residential street
- Separates through traffic from local traffic
- Provides buffer to homes on west side of Harmony Road

Disadvantages

- Does not address the weave distance from SB I-95 ramp onto WB 273
- Does not address safety on SR 273
- Does not address the SR 273/Harmony Road intersection capacity
- Reduces access points to the community from Harmony Road
- Requires a large number of residential purchases and displacements on the east side of Harmony Road
- Potentially increases traffic volume and speed near Gallaher Elementary School
