

Section 9. Delaware Sediment and Stormwater Regulations

The Delaware Sediment and Stormwater Regulations are included in this design guide for the convenience of the designer. A copy of the current regulations can be downloaded from the DNREC (Department of Natural Resources and Environmental Control) website: <http://www.swc.dnrec.delaware.gov/pages/SedimentStormwater.aspx> click on Sediment & Stormwater Regulations. Any proposed changes are also listed in this website and link.

Designers should be familiar with these regulations especially Section 3 and 10. Section 3 covers the available waivers, exemptions, and variances. Section 10 covers the specific design criteria and minimum standards and specifications for erosion and sediment controls and stormwater management practices.
