

Information Sheet

Single and Multi Trip Interstate Hauling Permit Program

Federal regulations require the State of Delaware to establish the Federal Bridge Formula as the limiting factor for the determination of legal weights on the Interstate road system in Delaware (I95, I295, and I495).

On October 1, 1990 the Delaware Department of Transportation in conjunction with the Delaware Contractor's Association established a permitting program to allow three and four axle vehicles to carry loads on the Interstate roadway system within Delaware that are otherwise legal on all other roads within the State under grandfather clauses in the Federal law. In order to qualify under the grandfather provisions, the permit must be a single trip permit.

For a three-axle vehicle, the bridge formula limits the vehicle and load to 54,000 pounds. With an Interstate Hauling Permit the vehicle and load can be either 65,000 pounds, or with an Annual Weight Registration Permit, 70,000 pounds.

The four-axle vehicle is slightly more complex. With the axle spacing as provided under the bridge formula (see Bridge Formula on page 3) a four-axle vehicle can range from a legal weight of 50,000 pounds up to 74,000 pounds. For those with axle spacing at the upper limit no permit is needed. At smaller axle spacing, the bridge formula becomes a limiting factor below that otherwise allowed on other Delaware roads. Again, an Interstate permit can be purchased to allow a four-axle vehicle to carry up to the Delaware legal load of 73,280 pounds.

The DelDOT Oversize Overweight Permitting System allows for two methods of purchase depending on the customer's need:

Single Trip Interstate Permit

For the customer who only needs to move once a Single Trip Interstate Permit, at a cost of \$1.00, is available. This permit has a 10 - day duration in which the single trip can be made.

Permit is not vehicle specific and can be transferred between vehicles.

The Single Trip Interstate Permit can be purchased at the DelDOT Hauling Permit Section in Dover or by mail (mail worksheet to address on the enclosed Interstate Permit Worksheet)

The Single Trip Interstate Permit can also be purchased via the Internet. Customers desiring this option must first apply for an online Fund Account. See paragraph 2 to the User Guide for Online Customers at the User Guide link on the DelDOT Oversize Overweight Permit System <http://www.osow.deldot.gov> web site.

Muti Trip Interstate Permit

For the customer that is going to repeatedly use the Interstate road system, a Muti Trip Interstate Permit, at a cost of \$150.00, can be purchased that combines 150 Single Trip Interstate Permits on one form. Duration of permit is one year from start date. Trips may occur during the duration of the permit or 150 trips, which ever comes first.

The Multi Trip Interstate Permit is comprised of a distinctive paper permit in which the 150 trips are recorded on the reverse side.

Permit is not vehicle specific and can be transferred between vehicles.

The Multi Trip Interstate Permit can be purchased at the DelDOT Hauling Permit Section, 303 Transportation Circle, DMV Building, Room 208, Dover, DE or by mail (mail worksheet to address on the enclosed Interstate Permit Worksheet)

BRIDGE FORMULA MAXIMUM GROSS WEIGHTS FOR THE INTERSTATE SYSTEM
