

Additional Topics

Date: August 17th, 2018

Location: Farmington/Felton Room

- Time: 9:00am -10:00am (Project Development North and South)
10:00am – 11:00 am (Bridge Design, Traffic Design and Traffic Safety)

Additional Topics

- eQuorum Plotting Software to be phased out by December 31st, 2018. All plotting needs will be prepared using MicroStation Print or iPlot/ProjectWise.
- Transitioning away from plotting from within the design model, and pushing the use of sheet models to take advantage of MicroStation plotting and ProjectWise Rendition automation.
- Font substitutions will be made throughout the entire resource package that we make available. This is being done to support the Bentley Connect Edition software migration effort.
- All CADD support requests should be sent to the following group email address:

DOT_CADDsupport@state.de.us
