

ACKNOWLEDGMENTS

The Louis Berger Group, Inc., wishes to express thanks to the many people who provided guidance, advice, and assistance at various stages of the project.

We wish first to thank our two dedicated volunteers, David Leppo, Sr., and Barbara North, without whose help the job would have taken longer and been much less fun.

The Delaware State Historic Preservation Office provided an important oversight role and responded quickly to all requests for consultation and guidance. We wish especially to thank Daniel R. Griffith, Director and State Historic Preservation Officer; Gwen Davis and Alice Guarrant, Archaeologists; and Joan N. Larrivee, Deputy State Historic Preservation Officer. Important assistance was also provided by Charles Fithian, Curator of the Delaware State Museum, and the staffs of the Delaware Bureau of Archives and Records at the Hall of Records in Dover, and the Library of Congress in Washington, D.C.

Many people at the Delaware Department of Transportation provided important assistance, including Kevin Cunningham, Archaeologist; Ann Canby, Secretary; Raymond Harbeson, Chief Engineer; Eugene Abbott, Director, Planning; Joseph T. Wutka, Jr., Assistant Director, Planning; Therese M. Fulmer, Manager, Environmental Studies; Loretta Brisbane, Secretary; Anna May Decker, Project Scheduling and Support; Tim O'Brien, DOT Photographer; Dave DuPlessis, Project Engineer; and Danny Skeens and Ira White, Property Management. Production help came from the Division of Support Operations, including Bill Yerkes, Graphics and Printing Manager; Kate David, Graphics Specialist III; Robert J. Zullo, Graphics Specialist II; Justina Brewington, Photo Reproduction Technician; Jim Sylvester, Printer III; and Ed Wilkinson, Printer III. We also wish to thank Tommy Beatty, Division Administrator, and Robert Kleinburd, Environmental Officer, both of the Federal Highway Administration, and Foster Hoffman of Century Engineering.

We wish to thank the members of the press who helped us publicize our work at the site, especially Joanna Wilson of the *Dover Post* and Delrita Ford of the *Delaware State News*.

The Cultural Resource Group of Berger had direct responsibility for the study. The Berger staff was under the overall direction of John Hotopp, Group Vice President. Charles LeeDecker served as Project Manager. John Bedell was the Principal Investigator. Historical research was carried out by Ingrid Wuebber, Eric Griffiths, and John Bedell. Henry Holt served as Field Supervisor during the evaluation of the site, and Doug Tilley during the excavations. The field crew consisted of Wyn Bedall, Theresa Brannon, Joelle Browning, Dawn Corbett, Andrea Denight, Heather Fener, David Gilmour, Keith Googins, Sarah Rakus, Catherine Skocik, James Skocik, Paul Stansfield, and Keith Young (Plate 1). Laboratory supervision was provided by Sharla Azizi. Analysis of the artifacts was carried out by Meta Janowitz, Mallory Gordon, Gerard Scharfenberger, and Byron Simmons. We received invaluable help from our consultants, faunal analyst Marie-Lorraine Pipes, paleoethnobotanist Justine McKnight, and Elizabeth Anderson Comer, who assisted us with public interpretation.
