

TABLE OF CONTENTS

	Page
Abstract ..	i
DelDOT Archaeological Series Index Information ..	ii
Acknowledgements ..	iv
Table of Contents ..	v
List of Figures ..	vii
List of Plates ..	ix
List of Tables ..	x
I. Introduction ..	1
A. Project Description and Location ..	1
B. Report Organization ..	3
II. Environmental Background ..	5
A. Physiography ..	5
B. Geology and Soils ..	7
C. Flora and Fauna ..	9
D. Paleoenvironment ..	10
III. Cultural Background ..	14
A. Prehistoric ..	14
B. Historic Period ..	27
IV. Previous Investigations ..	30
A. Management Units ..	30
B. Prehistoric and Historic Period Sites ..	34
C. Summary ..	43
V. Research Design ..	45
A. Phase I Survey ..	45
B. Phase II Testing ..	46
VI. Methodology ..	55
A. Field Procedures ..	55
B. Laboratory Procedures ..	57

VII. Stormwater Management Areas, Phase I Archaeological Findings	60
A. Stormwater Management Area 1	60
B. Stormwater Management Area 2	63
VIII. Iron Hill East (7NC-D-108).....	70
A. Location and Current Conditions	70
B. Field Strategy.....	75
C. Findings	78
D. Interpretation	123
IX. Conclusions and Recommendations.....	131
A. Stormwater Management Area 1	131
B. Stormwater Management Area 2.....	131
C. Iron Hill East (7NC-D-108).....	132
D. Final Conclusions	138
References Cited	142

Appendices

- A. List of Personnel
- B. Glossary
- C. Database Abbreviations
- D. Inventory

LIST OF FIGURES

		Page
1-1.	Project Location	2
2-1.	Physiographic Zones of the State of Delaware	6
4-1.	Cultural Resource Management Units, State of Delaware.....	32
4-2.	Frequency of Historic Period Site Types in New Castle County.....	33
4-3.	Iron Hill East Location.....	38
7-1.	Stormwater Management Area 1: Shovel Test Grid.....	61
7-2.	Stormwater Management Area 1: Shovel Test Profile Section, N160 E140	62
7-3.	Stormwater Management Area 1: Shovel Test Profile Section, N180 E120	64
7-4.	Stormwater Management Area 1: Shovel Test Profile Section, N240 E100	65
7-5.	Stormwater Management Area 2: Shovel Test Grid.....	66
7-6.	Stormwater Management Area 2: Shovel Test Profile Section, N100 E120	68
7-7.	Stormwater Management Area 2: Shovel Test Profile Section, N140 E140	69
8-1.	Iron Hill East Location.....	71
8-2.	Iron Hill East: Current Study Area Boundaries	72
8-3.	Iron Hill East: Results of Phase I Shovel Testing.....	76
8-4.	Iron Hill East: Phase II Shovel Test Grid	77
8-5.	Iron Hill East: Test Unit 4, South Profile Section.....	79
8-6.	Iron Hill East: Historic Period Artifact Distribution.....	82
8-7.	Iron Hill East: Distribution of Selected Historic Period Ceramic Types.....	83
8-8.	Iron Hill East: Projectile Point Fragment.....	85
8-9.	Iron Hill East: Size Grade Analysis for Selected Proveniences.....	94
8-10.	Iron Hill East: Size Grade Analysis, Grade 2 Peak.....	96
8-11.	Iron Hill East: Size Grade Analysis, Grade 3 Peak.....	97
8-12.	Knife River Experimental Data, Cumulative Frequency Distribution by Count	98
8-13.	Iron Hill East: Cumulative Frequency Distribution by Count.....	99

LIST OF FIGURES

	Page
8-14. Knife River Experimental Data, Cumulative Frequency Distribution by Weight	100
8-15. Cumulative Frequency Distribution by Weight: Iron Hill East and Knife River Experimental Data.....	101
8-16. Cumulative Frequency Distribution by Weight: Iron Hill East and Virginia Experimental and Archaeological Data	102
8-17. Cumulative Frequency Distribution by Count: Iron Hill East and Virginia Experimental and Archaeological Data	103
8-18. Iron Hill East: Size Grade Analysis Using Intermediate Grade (1.5).....	105
8-19. Iron Hill East: Size Grade Analysis Using Intermediate Grade (1.5).....	106
8-20. Patterson's Experimental Biface Reduction Flake Size Distribution	109
8-21. Iron Hill East: Linear Plot of Size Grade Data	110
8-22. Iron Hill East: Semi-Log Plot of Size Grade Data.....	111
8-23. Iron Hill East: Linear Regression of Data from Selected Proveniences	114
8-24. Prehistoric Artifact Distribution	116
8-25. Surface Plot of Prehistoric Artifact Distribution.....	117
8-26. Close Interval Shovel Testing	118
8-27. Test Unit Locations and Artifact Frequencies	119
8-28. Distribution of Reddened Lithic Debris.....	120
8-29. Relative Frequency of Reddened Lithic Debris.....	121
8-30. Distribution of Cryptocrystalline Flakes.....	122

LIST OF PLATES

	Page
8-1. Iron Hill East: Aerial View Looking North Along Existing SR 896 Right-of-Way	73
8-2. Iron Hill East: Aerial View Looking Northeast, Showing Detail of Southern Portion of Shovel Test Grid	74
8-3. Iron Hill East: Siliceous Quarry Debris	88
8-4. Iron Hill East: Jasper Flakes	88
8-5. Iron Hill East: Jasper Flake.....	89
8-6. Iron Hill East: Size-Graded Debris.....	89

LIST OF TABLES

		Page
3-1.	Regional Prehistoric Chronology	15
6-1.	Data Categories Recorded in Artifact Database	58
6-2.	Comparison of Size-Grade Intervals	59
8-1.	Iron Hill East: Historic Period Artifact Frequencies	80
8-2.	Iron Hill East: Prehistoric Artifact Frequencies	84
8-3.	Iron Hill East: Lithic Raw Material Frequencies for Prehistoric Artifact	85
8-4.	Comparison of Size-Grade Intervals	92
8-5.	Reduction Stages Used in Knife River Experiments.....	93
8-6.	Iron Hill East: Size Grade Data	95
8-7.	Size-Grade Interval Comparison: Iron Hill East	104
	and UD/CAR Analyses	
8-8.	Iron Hill East: Ratio of Small to Large Debris.....	107
8-9.	Iron Hill East: Linear Regression Statistics for Size Distribution of Lithic Debris.....	112
8-10.	Lithic Resource Use at Selected Quarry-Reduction Sites in Northwestern Delaware	124
8-11.	Artifact Types at Selected Quarry-Reduction Sites in Northwestern Delaware	125
9-1.	Summary of Recommendations.....	140
