January 28-30, 2008

8 am - 5 pm daily - DCA Classroom

Traffic Control Technician (TCT)

January 28, 2008 - This course provides an introduction to temporary traffic control in a work zone for those who are relatively inexperienced in this area. It teaches concepts, techniques and practices in the installation and maintenance of traffic control devices.

Cost: \$230.00 per person plus
\$125 for certification, if desired.

Traffic Control Supervisor (TCS)

January 29-30, 2008 - This two-day course is designed to train those who will be actively involved in designing or setting up and maintaining temporary traffic control in a work zone. It moves from the concepts and techniques taught in the TCT course to the implementation of traffic control plans and techniques for installation and removal. Students are taught how to read and interpret plans and specifications and implement them in the field. Prerequisite: Traffic Control Technician (TCT).

Cost: \$430.00 per person plus
\$125.00 for certification, if desired.
