

A photograph of a river in winter. The water is dark and turbulent, with white foam from rapids. A large, snow-covered log lies across the river. The banks are covered in snow and bare trees. The sky is overcast.

DeIDOT ES₂M
(Erosion, Sediment, &
Stormwater Management)

Design Updates

- Stormwater Design Committee
 - R Pv Process Flow Diagram
 - DeIDOT Cv & Fv Process Flow Diagram
 - Standard Plan Submittal
- Banking Agreement
- ES₂M Design Guide
- Plan Approvals by July 1
- DURMM Sheets

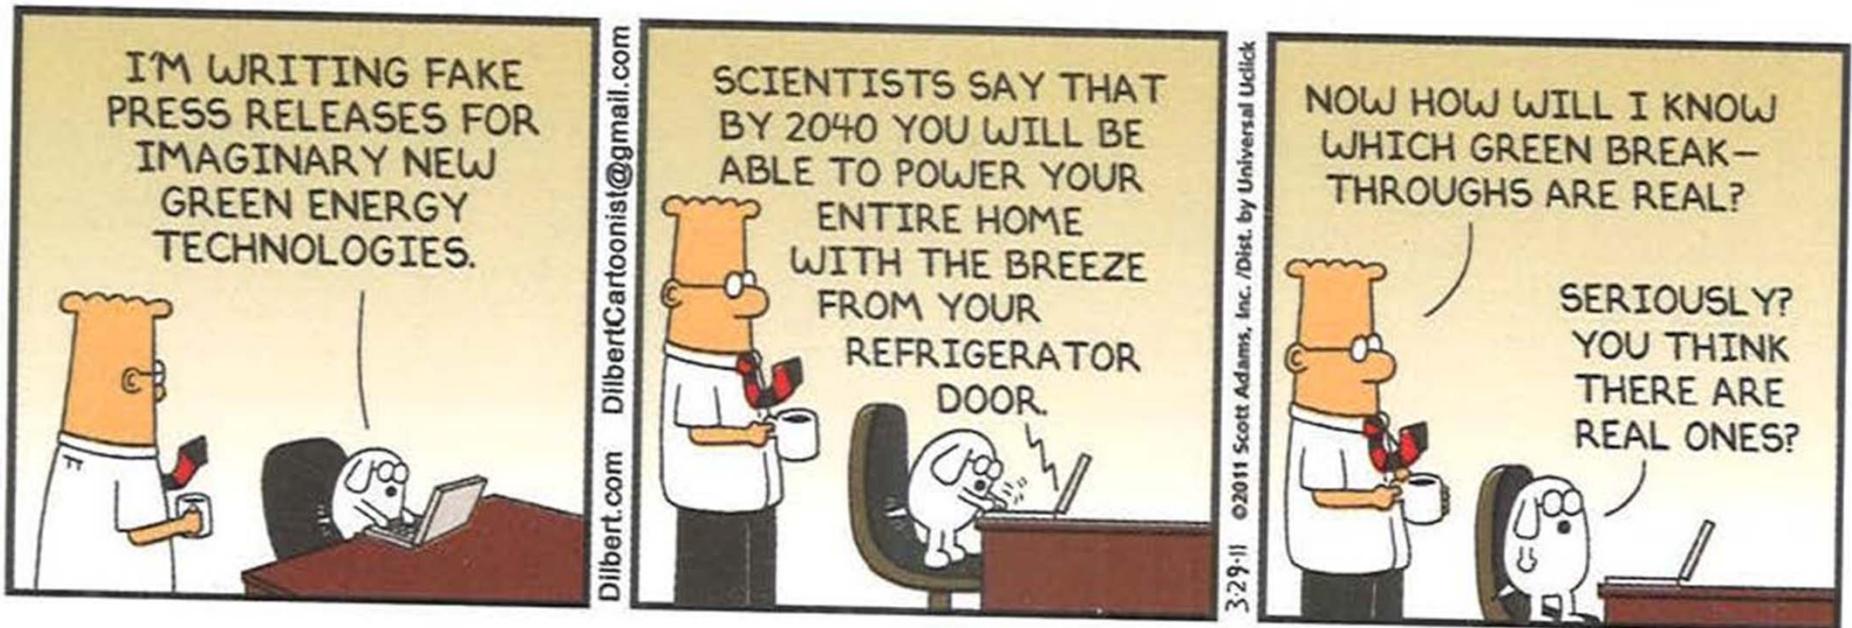

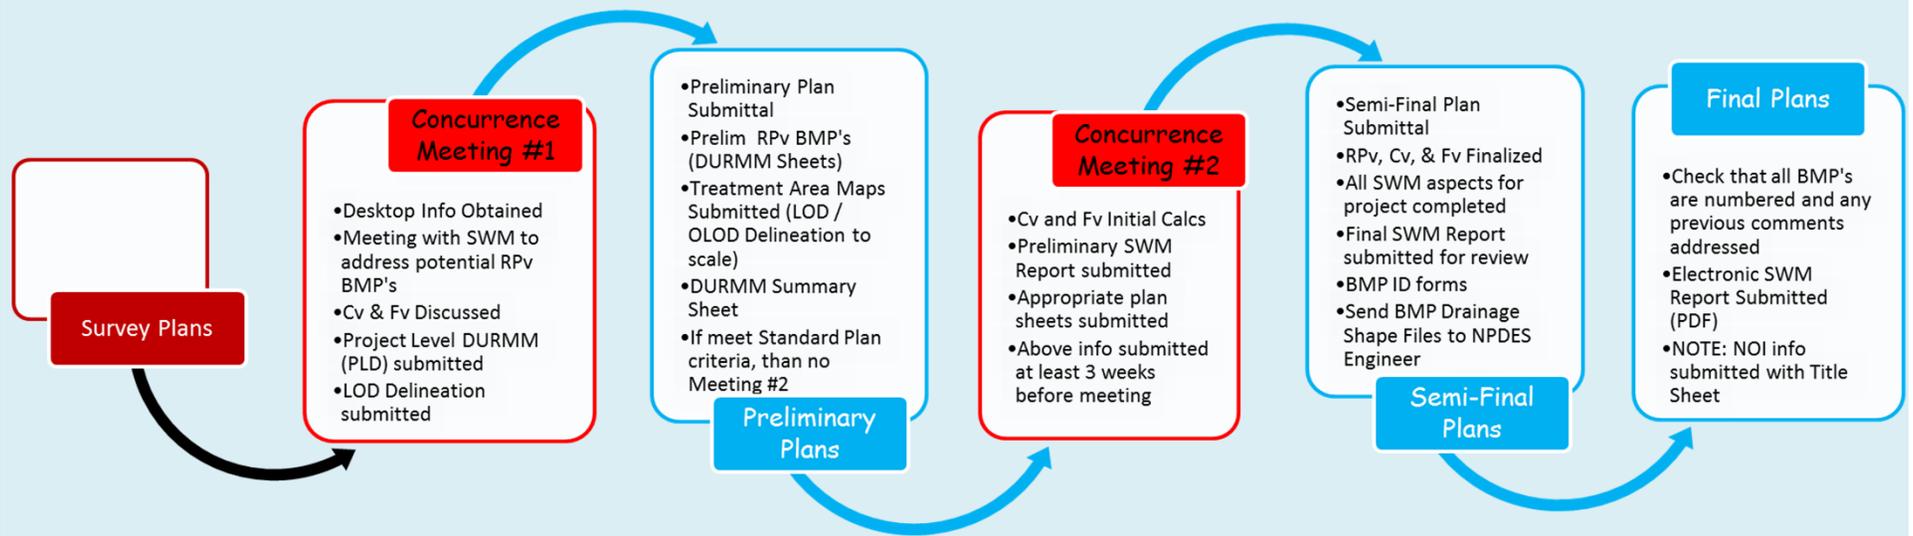

PROBLEMS

NO MATTER HOW GREAT AND DESTRUCTIVE YOUR PROBLEMS MAY SEEM NOW,
REMEMBER, YOU'VE PROBABLY ONLY SEEN THE TIP OF THEM.

Plan Review Process

Construction Updates

- New 900 Section (Standard Specs)
 - Actions as per received score on ES₂M Report
- Infiltration Basins
- BMP Construction Checklist
- Minor Projects & Rain Event Reporting
- Approved Plan Changes (E&S)
- Plan Expiration

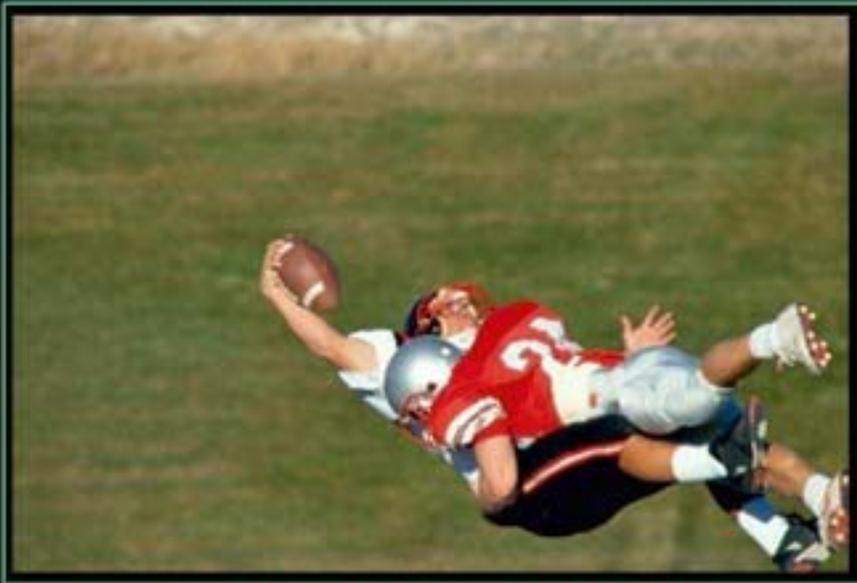

STRIFE

AS LONG AS WE HAVE EACH OTHER, WE'LL NEVER RUN OUT OF PROBLEMS.

Future

- Design for TMDL's
 - NPDES Permit Phase I
 - Chesapeake Bay
- DERT (DelDOT Environmental Reporting Tool)

SUCCESS

SOME PEOPLE DREAM OF SUCCESS,
WHILE OTHER PEOPLE LIVE TO CRUSH THOSE DREAMS.

QUESTIONS / DISCUSSION

AIM HIGH

What's the worst that could happen?
