

PROJECT OVERVIEW

To improve the intersection capacity, operational deficiencies and safety of the intersection to address the projected growth of the area over the coming years.

PROJECT IMPROVEMENTS

Provide an additional Northbound and Southbound lane on US 13 from the Greylag intersection to Augustine Creek.

Provide an additional left turn lane from Boyd's Corner Road onto US 13

Provide proper acceleration lanes on WB Boyd's Corner Road

Provide additional capacity to existing turn-lanes

Relocate the Wawa entrance further north of the intersection to improve safety

Provide drainage improvements

Provide pavement marking and signing improvements

Relocate utilities

PROJECT NOTES

The construction cost for this project is estimated to be \$7.5 Million

The Right-Of-Way cost for this project is estimated to be \$1 Million

Due to recent budgetary constraints, funding for this project is not available. However, DELDOT will complete the design plans in the spring of 2007. Construction timetables will be determined at that time.
