

Project Purpose

- To improve traffic operations and safety on SR 273 between I-95 and Harmony Road.

Project Needs

- **SR 273 Safety:** Reduce the high frequency of crashes related to the Focus Area.
- **Weaving on Westbound 273 between Southbound I-95 ramp and Harmony Road:** Address the short (475 feet) weaving area on westbound SR 273 between the southbound I-95 ramp and Harmony Road.
- **Intersection Capacity:** Address the long, peak-hour queues and delays at the SR 273/ Harmony Road intersection.
- **Interchange Design & Function:** Improve the function of the I-95 /SR 273 interchange.
